Sorry for the delay in getting this out today - waiting on MXNA. An entry by Andrew Powell kicked off such a good series of blogs, that I have decided to highlight the entire collection as a bonus set for this week.

- **Ask a Jedi: Question on Application based CFCs** (**Ray Camden**, March 24)
- **5 Reasons to go to cf.Objective** (**Terrence Ryan**, March 24)
- **Jing: A Perfect Storm is Brewing** (**Brooks Andrus**, March 27)
- **RegExr: Free Online RegEx Testing Tool** (**Brajeshwar Oinam**, March 27)
- **SQL Update Tip** (**Axel Jensen**, March 28)

Bonus:

What should a Developer Know? (SQL? HTML?)

- **Ben Nadel's Easy Tips For Writing Better, More Optimized SQL** (**Ben Nadel**, March 27)
- **My take: should a web developer know SQL?** (**Tom Mollerus**, March 27)
- **When to create indexes in your database** (**Tom Mollerus**, March 27)
- **You think you know HTML, don't you?** (**Kay Smoljak**, March 28)
