I am in town for the Adobe Community Summit and taking advantage of free Flex training.

A few hours into the class and I am really impressed with Flex.

The building here is really neat as well. Unfortunately, I forgot my camera. Fortunately, I am rooming with Michael Smith and Ryan Hartwich (who did remember to bring his).

[Ryan has some good pictures](#) of the building as well as one from our hotel room.

Well, class is starting again. Better get back to it...
