In the discussions this week, Grails and SimpleDB. I have also seen lots of entries on SVN and ANT lately. All of them good, but they often get beat out by other entries. I will have to find a way to give them the focus they deserve.

- [Barney and the Holy Grail](#) (Barney Boisvert, February 11)
- [What SimpleDB Could Do For Your RIA](#) (David Tucker, February 12)
- [LEFT OUTER JOIN will kill you! or "It's the database, stupid"](#) (J.J. Merrick, February 14)
- [ColdFusion Podcasts, past and present \(and future?\)](#) (Charlie Arehart, February 14)
- [Reading Flash \(Swf\) metadata from ColdFusion](#) (Rupesh Kumar, February 15)
