sebtags 1.0 RC4 (security issue)

Posted At : July 1, 2009 3:00 PM | Posted By : Steve
Related Categories: sebtags

Pete Freitag recently pointed out a **security issue** with file uploads. This affected file uploads in cf_sebForm so this update addresses this issue. The update also has other tweeks and features, but no point in covering those until I have some real documentation (soon, I hope). Anyway, if you are using the sebtags custom tags set, upgrade now.
