Related Categories: ColdFusion, CF\_BlogPicks

I found several discussions on the same topic this week. So, this time I am grouping some blog entries by topic. The top link is what I would consider the main primary entry on the topic, followed by a few picks on that topic.

Here are the blog picks themselves:

- [ColdFusion IDE Survey](#) ([Jason Delmore](#), January 7)
- [Common ColdFusion Arguments](#) ([Sean Corfield](#), January 11)
- [Interacting with MS Excel](#) ([Charlie Arehart](#), January 12)
- [Selecting Top X From Each Group](#) ([Ben Nadel](#), January 7)
- [Checkbox Range Selection \(a la Gmail\)](#) ([Barney Boisvert](#), January 8)
- [Ask a Jedi: Development versus Staging servers](#) ([Ray Camden](#), January 8)

Here are some of those blogs with a selection of related entries:

## ColdFusion IDE Survey

[ColdFusion](#) product manager [Jason Delmore](#) puts out a survey on what developers want for an IDE, which sparks a lot of discussion in the community.

- [Adobe ColdFusion IDE Survey](#) ([Damon Cooper](#), January 7)
- [Adobe ColdFusion IDE survey](#) ([CF-Talk](#), January 7)
- [They're All Just Text Files \(Adobe ColdFusion IDE Survey\)](#) ([Ben Nadel](#), January 7)
- [Some \(unfinished\) thoughts on IDE's for ColdFusion](#) ([Trond Ulseth](#), January 9)
- [The Great Coldfusion IDE Debate](#) ([Mark Kruger](#), January 9)
- [The Ultimate ColdFusion IDE](#) ([Steve Brownlee](#), January 14)

## Common ColdFusion Arguments

[Sean Corfield](#) responds to arguments about what Adobe should do to make ColdFusion more popular. He in turn gets several responses (currently more than 50 comments and at least one blog entry)

- [A response to "Common ColdFusion Arguments"](#) ([James Marshall](#), January 11)

## Interacting with MS Excel

[Charlie Arehart](#) puts together links to several resources for interacting with MS Excel (and MS Office in general) just as [Mark Mazelin](#) blogs about querying Excel.

- [Querying Excel files in ColdFusion](#) ([Mark Mazelin](#), January 10)
- [Querying Excel files in ColdFusion Part II](#) ([Mark Mazelin](#), January 10)
