This week saw lower blogging volume due to Christmas and other holidays, but still had a good selection of blog entries.

- [ArrayAppend\(\) Does Not Work With ColdFusion's XML Pseudo-Node-Sets](#) (Ben Nadel, December 22)
- [Formal Code Reviews vs. Automatic Tools](#) (Terrence Ryan, December 22)
- [Monitoring ColdFusion Servers](#) (John Wish, December 23)
- [ColdFusion Scope Existence During Various Request Types And Events](#) (Ben Nadel, December 23)
- [Akismet learns, Captcha doesn't](#) (Jake Munson, December 26)
