CF_BlogPicks January 5, 2009

I decided a **year ago** to start the cf_BlogPicks. I hoped to keep it up every week for at least a year. I hoped that I could get 50 entries done in that time (that is, miss no more than two weeks). With this entry, I have done that.

The question now, is will I continue. Although I have really enjoyed doing this, I suspect that I will not have the time to do it in the near future. My first children are due to arrive shortly (about which I am very excited). So, I probably won't have the time to continue this - at least for the first few weeks of the year.

Hope some people got some use out of it.

Thanks!
