This week had some big news. Firstly, ColdFusion community staple, [Steve "Cutter" Blades](#), just **announced the publication of "Learning Ext JS"**. Congrats, Steve!

In other news, [CFUnited registration is open](#) and [CF Doc's UKCFUG podcast had their first episode](#). All this and a great selection of blog entries (including the discover of a new operator in ColdFusion).

- [Structures and Pointers](#) (Charlie Griefer, November 10)
- [Using ColdFusion CFMail to send Microsoft Outlook Appointment Request](#) (John Gag, November 12)
- [Ask Ben: Dynamic Table Names In ColdFusion Queries](#) (Ben Nadel, November 13)
- [Guide to ColdFusion Administrator Extensions](#) (Raymond Camden, November 13)
- [Finding something new where you never thought you will](#) (Ed Tabara, November 13)
