CF.Objective made me a little late on this entry, but it was well worth (more on that later). Even with CF.Objective, this week saw a great selection of essential blog reading.

- [Transfer 1.0 Release Candidate - Out Now!](#) ([Mark Mandel](#), April 28)
- [CFLOCK Explained](#) ([Simon Hortwith](#), April 28)
- [Pair Programming With Ben Nadel](#) ([Pete Bell](#), April 29)
- [Update on MXNA \(or what the %@#! is going on!\)](#) ([Mike Chambers](#), April 29)
- [New ColdFusion CFMailParam "Remove" Attribute Makes Deleting Attachments Simple](#) ([Ben Nadel](#), April 30)
