The big news this week is **New Atlanta**'s **announcement** to release an open source version of **BlueDragon**. We also had plenty of good entries about Application.cfc.

- Ask Ben: Extending Application.cfc And OnRequestStart() With SUPER (Ben Nadel, March 11)
- Open-Source BlueDragon Overview and Wrap-up (Brian Rinaldi, March 11)
- The Inner Workings of a ColdFusion Array and Structure (Simon Whatley, March 11)
- ColdFusion 8 Gotcha: The Decrypt() Function (Steve "Cutter" Blades, March 11)
- Per Application Mapping Gotcha (Andrew Powell, March 12)
