The Tulsa CFUG is proud to host a Connect presentation by [Jason Dean](#) on ColdFusion Security today (August 31, 2010) at 12:30 PM central.

The details on are the [Tulsa CFUG meetings page](#).

Every time I read Jason's blog entries on security, I find it frightening to see just how much I still have to learn on the subject. I'm excited to learn more today.

If you are in the Tulsa area, we would love to see you on location where you can pick up some swag and talk to other local ColdFusion programmers. Otherwise, feel free to watch on line.

A big "Thank you" to Jason for graciously accepting the invitation to present to our little group.
