Although some discussions are still going about the open sourcing of Blue Dragon this week, the focus is shifting more to what we want to have in ColdFusion 9.

- **What Would You Want From ColdFusion Microsoft SharePoint Integration?** (**Ben Forta**, March 18)
- **Ask a Jedi: So what happens when you don't var scope?** (**Ray Camden**, March 18)
- **Ask a Jedi: Ajax-bound requests and onRequest** (**Ray Camden**, March 19)
- **List Delimiters and Coldfusion Magic** (**Mark Kruger**, March 20)
- **Using CFCProxy inside CF to call a CFC via file path** (**Bill @ MXunit**, March 21)

PS - I think it is time that I start using a good RSS reader. Anyone have any suggestions?
