No major news this week, but a varied selection of great blog entries of use to any CF developer.

- [How to Protect Your Website from a Malicious Attack](#) (Simon Whatley, August 18)
- [XMLSearch supports the contains string function of XPath](#) (John Whish, August 18)
- [String Concatenation performance test](#) (John Whish, August 19)
- [Use ColdFusion to Dynamically Split Content into 2- and 3-Columns](#) (Stephen Withington, August 21)
- [Just What Is 'Application Logic', Anyway?](#) (Doug Boude, August 22)
