This week has some really good blog entries on basics of ColdFusion with which we should all be familiar.

I also got my new MP3 player this weekend and listened to the **first episode** of **CFConversations**. I think they are off to a great start!

- More on Access Control Security Series #7.1 (Jason Dean, July 1)
- Top 6 Underused ColdFusion Functions (Nic Tunney, July 1) • Frequently Under-Implemented Functions (Simon Horwith, July 2)
- CFEclipse keyboard shortcuts (John Whish, July 3)
- Ask a Jedi: Sorting a 2D Array (Ray Camden, July 5)
- Explaining StructCopy (Sean Corfield, July 6)
